2.Name of the product:

STAS Multirail System /article code VH10200/VH10300/VH30200/VH30300

3.Statistical classification of produkt:

Aluminium bars, rods and profiles for lighting: 83024100

4.The purpose and domain

The STAS cliprail pro system is a hanging system that features a heavy-duty rail for loads of up to 45 kg per linear metre. Even so, the rail design is compact and looks very attractive in living rooms as well as in professional environments.

The thick-walled and massively strong rail makes the STAS cliprail pro system an ideal solution when heavier works of art need to be hung on a system that still looks elegant and attractive

5.Technical specification

- aluminium rail
- dimensions 11 x 28 mm
- capable of carrying loads up to 45 kg per meter
- available in white or a natural aluminium colour

Further specifications are in enclosed technical document: [stas_Multirail_en.pdf](#)
